

## Multi-Channel Stirrers

### Hotplate Magnetic Stirrers Multi-Channel

#### Analogue E-MSH-MC10

- Analogue temperature and speed control
- 10 position hotplate and magnetic stirrer
- Brushless DC motor
- Powder coated mild steel casing
- All positions operate off single control
- Maximum magnetic bar length 40mm
- Stainless steel work-plate with skid resistant silicone mat

Model	Display	Max. Stirring (mL) H <sub>2</sub> O	Stirring Speed (rpm)	Temp. Range (°C)	Timer	Work-Plate W x D (mm)
E-MSH-MC10	N/A	400 X 10	0 - 1100	Ambient to 120	N/A	180 x 450

### Magnetic Stirrers Multi-Channel

#### Analogue E-MS-MC10

- Analogue speed control
- 10 position magnetic stirrer
- Brushless DC motor
- Powder coated mild steel casing
- All positions operate off single control
- Maximum magnetic bar length 40mm
- Stainless steel work-plate with skid resistant silicone mat

#### Analogue E-MS-MC16

- Analogue speed control
- 16 position magnetic stirrer
- DC motor
- Powder coated mild steel casing
- 4 control channels each controlling 4 positions
- Maximum magnetic bar length 40mm
- Powder coated steel work-plate with skid resistant silicone mat

Model	Display	Max. Stirring (mL) H <sub>2</sub> O	Stirring Speed (rpm)	Temp. Range (°C)	Control Channels	Work-Plate W x D (mm)
E-MS-MC10	N/A	400 x 10	0 - 1100	N/A	1	180 X 450
E-MS-MC16	N/A	400 x 16	0 - 1100	N/A	4	365 X 345

Note: All Magnetic Stirrers do NOT come with magnetic stirring bars. Wide range of different size
